

A Letter from Our Director

“Pedal to the metal” is the expression that comes to mind, such is the rapid pace of Arts Habitat planning for the East Garrison at Fort Ord.

Last October 4, the Monterey County Board of Supervisors shouted “Go!” to Arts Habitat by voting unanimously to approve the East Garrison development. Sixty-five new low-cost rental live/work studios for artists will be included, plus 57,000 sq. ft. in a renovated historic district for day studios, classrooms and other arts related uses.

Arts Habitat, and our partner, Artspace, were named in the October 4 proceedings, with Artspace in the role of arts district facilities developer. Arts Habitat has responsibility for arts programming in all of the East Garrison.

Arts Habitat’s program at East Garrison will develop in three stages, keyed into the three construction phases of the developer, East Garrison Partners, LLC. Stage One begins with ground breaking in June. The goal is to introduce the arts as integral to the life of the East Garrison community. Stage Two amplifies this effort by introducing arts activities designed for East Garrison residents. Stage Two’s goal is to foster an arts-friendly culture where making and celebrating the arts is the norm. Stage Three will establish the Arts Habitat as a destination point for visitors from Monterey County and beyond.

Look on these pages for more arts programming information, and don’t miss the announcement of community roundtables – your opportunity to learn more about what’s happening, and to participate in Arts Habitat planning. These are exciting times!

A Frequently Asked Question

Is Arts Habitat the developer?

No. Arts Habitat is a not for profit 501(c)(3) organization committed to creating an arts community with affordable live/work space for professional artists in all disciplines. We are working with Artspace Projects Inc., a non-profit arts developer with 26 years of experience developing affordable space for artists. To learn more about them, visit their website www.artspaceusa.org. In addition, this community will include studio space, classes, exhibits, lectures, retail space and performances. East Garrison Partners, LLC is the master developer.

The *DUCK SOUP* film benefit at the Golden State Theatre was lots of fun. Look for upcoming information on future events.

Site Art, Anyone?

As construction begins—
so will the art.

When East Garrison begins its transformation we will be there with art. Imagine 20 paintings (in the shape of our house) encircling the construction site. The art houses will be created by professional artists, community members and organizations. This project will mark the first of many during Arts Habitat Stage One in the development of East Garrison.
